Journal of Membrane Science 93 (1994) 297–298

journal of MEMBRANE SCIENCE

Contents

Modeling of multicomponent pervaporation for removal of volatile organic compounds from water
W. Ji (Waltham, MA, USA), S.K. Sikdar and S.-T. Hwang (Cincinnati, OH, USA) 1
Determination of total protein adsorbed on solid (membrane) surface by a hydrolysis technique: single protein adsorption
M.K. Ko (Boulder, CO, USA), K.D. Cole (Gaithersburg, MD, USA) and J. Pellegrino (Boulder, CO, USA) 21
Analysis of a membrane/distillation column hybrid process
S. Moganti, R.D. Noble and C.A. Koval (Boulder, CO, USA) 31
Sorption and partial molar volumes of inert gases in rubbery polymers
Y. Kamiya, K. Mizoguchi and Y. Naito (Ibaraki, Japan) 45
Permeation of carbon dioxide in glassy poly(ether imide) and poly(ether ether ketone) membranes
H. Kumazawa, J.-S. Wang, T. Fukuda and E. Sada (Kyoto, Japan) 53
Continuous extraction of penicillin G with liquid surfactant membrane using Vibro Mixer
T. Hano, M. Matsumoto and T. Ohtake (Oita, Japan) 61
Photoinduced membrane potential change of methacrylate polymers containing various spiropyrans
S. Kurihara, M. Higuchi, T. Ogata and T. Nonaka (Kumamoto, Japan) 69
Porosity dependence of pore entry shape in track-etched membranes by image analysis
K.-J. Kim, P.V. Stevens and A.G. Fane (Kensington, NSW, Australia) 79
pH and ionic strength effects on the performance of ceramic membranes in water filtration
F.F. Nazzal and M.R. Wiesner (Houston, TX, USA) 91
On the presence of double log-normal permeability distributions in ultrafiltration membranes
K.M. Persson, V. Gekas and G. Trägårdh (Lund, Sweden) 105

Meetings calendar 115

Review
Studies on ion exchange membranes with permselectivity for specific ions in electrodialysis
T. Sata (Ube City, Japan) 117

Laboratory and pilot plant test of yttrium recovery from wastewater by electrostatic pseudo liquid membrane
Z. Gu, Q. Wu, Z. Zheng (Beijing, China), X. Li, Y. Jiang, C. Tang and P. Lin (Nanchang, China) 137
Carrier-mediated transport through liquid membranes. Studies on transport of nickel, cadmium and lead ions using tetradentate oxoiminato Schiff base ligands as carriers
S. Upadhyay, V.A. Varghese, L. Mishra, S.N. Singh and R.C. Srivastava (Varanasi, India) 149
Optical resolution of amino acids by ultrafiltration membranes containing serum albumin
A. Higuchi, M. Hara (Tokyo, Japan), T. Horiuchi and T. Nakagawa (Kanagawa, Japan) 157
Separation of supercritical fluid mixtures of CO_2 and petroleum components with an asymmetric polyimide membrane
T. Higashijima, H. Ohya, Y. Tsuchiya, H. Tokunaga, M. Aihara and Y. Negishi (Yokohama, Japan) 165
Formation and characterization of polyamide membranes via interfacial polymerization
G.-Y. Chai and W.B. Krantz (Boulder, CO, USA) 175
Membrane-assisted dehydrogenation of *n*-butane. Influence of membrane properties on system performance
M.E. Rezac, W.J. Koros (Austin, TX, USA) and S.J. Miller (Richmond, CA, USA) 193

Rapid communication
On membrane transport analysis
V. Singh and R.R. Rhinehart (Lubbock, TX, USA) 203

Meetings calendar 207

1994 Elsevier Science B.V.
SSDI 0376-7388

Structural study of microporous polypropylene hollow fiber membranes made by the melt-spinning and cold-stretching method
J.-J. Kim, T.-S. Jang, Y.-D. Kwon, U.Y. Kim and S.S. Kim (Seoul, South Korea) 209
Carrier-mediated, thermal energy coupled, non-isothermal membrane transport. Part 1. Transfer of the solute boric acid
E. Selegny (Mt. St. Aignan, France), J.N. Ghogomu, R. Roux (Yaounde, Cameroon), D. Langevin and M. Métayer (Mt. St. Aignan, France) 217
Carrier-mediated transport through liquid membranes. Studies on transport of cadmium ions using sodium lauryl sulphate reversed micelles as carriers
V.A. Varghese, S. Upadhyay and R.C. Srivastava (Varanasi, India) 229
Development of a new functional cation-exchange membrane and its application to facilitated transport of CO_2
H. Matsuyama, M. Teramoto and K. Iwai (Kyoto, Japan) 237
Pervaporation with sweeping gas in polymeric hollow fiber membrane module. Separation of alcohols from aqueous solution
S. Nii, Z.G. Mao and H. Takeuchi (Nagoya, Japan) 245
A study of stability of supported liquid membranes by impedance spectroscopy
F.F. Zha, H.G.L. Coster and A.G. Fane (Sydney, Australia) 255
Permselectivities of polysiloxaneimide membrane for aqueous ethanol mixture in pervaporation
J.Y. Lai, S.-H. Li and K.-R. Lee (Chung Li, Taiwan) 273
Permselectivity of zeolite filled polysulfone gas separation membranes
T.M. Gür (Stanford, CA, USA) 283
